

EGG BOT

2006

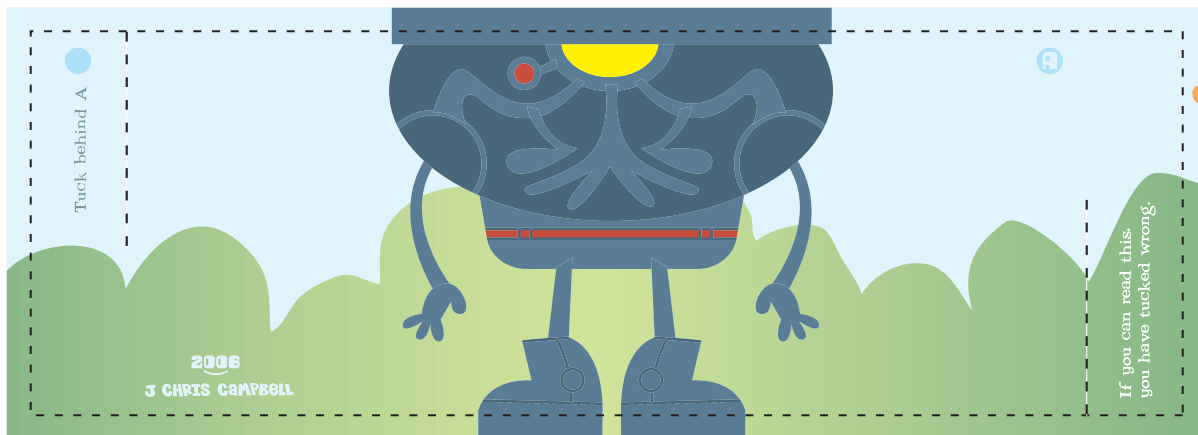

That's right! You can build your own custom Egg Bot! It's easy. Just print this out on some heavy paper. Cut around the dotted line. Slide ends together creating a cylinder.

Now just pull out your hard-boiled Grade A sized eggs, some egg die, and maybe some crayons. And make the face of the Egg Bot. You can even draw your own egg body. It's fun. Really. You should try it.

EGG BOT BODY

CUT DOTTED LINE

DRAW YOUR VERY OWN
